Concrete Canoe Presentations will be taking place in AIME 110, northwest of the Shelby Engineering and Science Quad. The building lies within the red circle on the map, with the canoe icon placed on the approximate location of the room in the building.

See next page for room information
AIME 110 Auditorium

The pictures above provide several views of the room and available audiovisual equipment. The wood surface underneath the screens where presenters will stand is approximately 18’ x 8’ (approximately 3’ behind and in front of the podium). The table to the left of the podium can be moved. For any information requests, please contact the conference email.
