Mystery Competition

Overview
The Mystery Competition provides an opportunity for engineering students to display their problem-solving and decision-making skills under pressure. The official rules will be made available during the conference.

Objective
This information will be revealed during the conference.

Eligibility
Each university may enter one (1) team consisting of at least two (2) individuals but no more than four (4) total. At least half of the team must be in its first or second year of undergraduate school.

Logistics
Each team will report to the competition location at the appropriate time as designated in the official conference schedule.

Submittals
No submittals are required for this competition.

Judging
Scoring will be based on each team’s ability to complete the competition to its fullest extent in the shortest amount of time.

Disqualifications
Teams may be disqualified at the discretion of the competition judge(s) if found to be in violation of the rules set forth at the time of the competition. Disqualifications are final, and teams may not appeal them.
